### Researchers Focus on Genetic Points Related to ADHD

Researchers are narrowing down the genes that appear to be related to ADHD. In the largest study of its kind, scientists identified a group of [genes that play a strong role in the risk of developing ADHD.](#)

### Asking for Workplace Accommodations

If your ADHD symptoms get in the way during your workday, you may qualify for reasonable accommodations. Are you familiar with what you can request? [An employment attorney offers suggestions.](#)

## CHADD Young Scientists Awards Taking Applications

Are you an emerging ADHD researcher, working on a doctoral degree, or did you complete a doctoral degree in 2016 or later? Do you know or work with someone who'd qualify?

There is still time to apply for CHADD's Young Scientist Research Awards. **Completed applications are due May 28, 2019.**

Apply Now For Young Scientist Award

## ADHD 365 Podcast

Students with ADHD Transitioning from High School to College  
Featuring Guest Judith S. Bass, CEP

Listen Now

Is your teen searching for the college that will support him? This is the podcast for you!

How does your teen find the college that fits him and his academic needs best? What does your teen need to do now to be ready for college this fall? Certified Educational Planner Judith S. Bass addresses these questions and others, along with tips and strategies that may help your teen be successful in college.

**Judith S. Bass, CEP**, is a nationally recognized expert in the field of college placement for students with learning differences and attention disorders. She has been active in the field of education for over 35 years as an educator, tutor, admissions counselor, and educational consultant. She is a frequent presenter at

national and regional conferences as well as to parent groups throughout the United States.
