

Do you have **ADHD**?  
**Attention Deficit/Hyperactivity Disorder?**

Are you currently taking a  
**stimulant medication** for treatment  
(i.e. Adderall, Ritalin, Concerta, Vyvanse etc.)?

Massachusetts General Hospital is conducting a new research  
study investigating a novel **mobile**-messaging intervention for  
**Adults ages 18 to 80.**

Participants will:

- Enter contact information into a secure database
- Complete an online survey (approximately 10 min)
- **Complete a 3 question survey** for 10 days, twice a day on a mobile device
- Complete an end of study survey

This project does not pay individuals for participation
