# **C.R.A.F.T. Research Study**

## **Culturally Responsive Assessments for Teens**

- Looking for Black and/or Latina/o/e adolescents ages 12-17 who have struggled in school with mental health, attention, and/or a diagnosis of ADHD.
- Research study will be conducted in-person (at Loyola University Chicago) or through telehealth.

### **What to expect:**

- 2 visits and monthly follow up surveys
- A full wellbeing assessment with a behavioral healthcare provider including testing, diagnoses, and information about wellbeing
- A feedback session with a behavioral healthcare provider to review results and discuss resources

### ***What you will get:***

*Up to \$95 for the first two visits and \$180 for completing online questionnaires*

*+*

*You will also receive a free report describing assessment results!*

For further details, parents/legal guardians can contact [amelendez3@luc.edu](mailto:amelendez3@luc.edu) or call

**773-508-3021.**
