

Participate in brain research!

ATTENTION: Parents of children ages 8-12

We are recruiting children to participate in a transcranial magnetic stimulation (TMS) research study to learn if there are differences between the brain's function in children *with* and *without* ADHD (Attention Deficit Hyperactivity disorder). We are also testing the effect of TMS on and off medication in children *with* ADHD

- WHO:** Girls and boys with and without ADHD ages 8-12 years-old
- WHAT:** Eligibility screening via parent phone interviews, 2-3 days of testing including computer games, questionnaires, transcranial magnetic stimulation (TMS), and medication. *Parents will receive an IQ report!*
- WHERE:** Kennedy Krieger Institute in Baltimore, MD
- BENEFIT:** There is no direct medical benefit for participating in this study.
- COMPENSATION:** \$50 per day of participation.
- CONTACT:** Alyssa DeRonda
