

DOES YOUR CHILD HAVE ADHD AND/OR DYSLEXIA?

RAISE YOUR VOICE TO
POSITIVELY IMPACT SCIENCE!

Stanford University researchers are calling all parents/caregivers of children under 18 who have been diagnosed with dyslexia and/or ADHD! Learn about and share your thoughts on the risks and benefits of a new area of DNA research that may impact you and your child.

It's easy!

- Fill out a quick 5-minute survey
- If selected, take part in an hour-long, confidential interview and receive a \$60.00 USD gift card.

Questions? Contact the lead investigator for this study Professor Daphne Martschenko: daphnem@stanford.edu

For complaints, concerns, or participant's rights, contact the Stanford University Office for Human Research Participants: 1-866-680-2906.
