

# Survey for understanding the experiences of hyperfocus and sleep in youth with and without ADHD

## Youth with and without ADHD needed!

If you are:

- A parent or guardian of a child or adolescent with and without a diagnosis of ADHD
- The child is between the ages of 8 and 17
- Lives in the United States and your child experiences changes in concentration and sleep habits.

Researchers the BRAIN lab at Palo Alto University are looking for volunteers to complete an online study will take 45 - 60 minutes to complete. The participant's child is also required to complete two questionnaires in this study.

Scan the QR code below to determine eligibility:

For questions or assistance with signing up for this study, contact the BRAIN lab at (650) 417-2050 BrainLabPAU@gmail.com
