

# PARENTING CHILDREN WITH DIFFERENT NEEDS?

Participate in a research study exploring parenting styles in families with children with and without ADHD

## Requirements

- Must be a married parent above the age of 18
- Must have
  - At least one child diagnosed with ADHD
  - At least one child without ADHD
- Children must be aged 6-16
- Access to the internet

## Participation Includes

- 30-minute online survey via Qualtrics
- You will answer questions about how you parent each of your children and how you handle common parenting scenarios and challenges

\*This study is being conducted as part of a doctoral dissertation at The Chicago School.\*
